

R L I Kickstart Your Career Workshop

Perspective from an Academic Body Imager

Linda C. Chu, MD
Associate Professor of Radiology
Johns Hopkins University

Disclosures

- Research grant support:
 - Lustgarten Foundation
 - Emerson Collective

Learning Objectives/Key Take-Away Points

- Making a career choice
- Life of an academic radiologist

Making a Career Choice

- Ask yourself some questions:
 - What do you value?
 - What are you passionate about?
 - What are your career goals?
 - What makes you happy?

**If you do what you love,
you'll never work a day in
your life.**

Marc Anthony

DO WHAT YOU LOVE
AND YOU'LL ~~NEVER~~
~~WORK A DAY IN YOUR~~
~~LIFE~~ WORK SUPER HARD
ALL THE TIME WITH NO
SEPARATION OR ANY
BOUNDARIES AND ALSO
TAKE EVERYTHING
EXTREMELY PERSONALLY

Life of an Academic Radiologist

Clinical Day as a Body Imager

- Attend on CT, MR, US, and biopsy service
- Paired with residents/fellows on clinical service
- Daily awesome cases at a tertiary care center
- Lifelong learning from colleagues with different domain expertise
- Collaborate with other clinicians on Tumor Boards and Multidisciplinary Conferences

Teaching

- Learners:

- Medical students
- Residents
- Fellows

- Venues :

- Didactic lectures
- Case-based review
- One-on-one learning at the workstation
- Curriculum development
- CME courses

Cutting Edge Research

- Opportunity to collaborate with other clinicians and basic science researchers to perform cutting edge research
- My research is focused on radiomics and deep learning of the pancreas
